# EDM930 CAN Release Notes

## Version 1.20.532.002          Checksum: 06C2E8AF

Changes in this version include:

1. Speed up PWM Terminal Count frequency to minimize voltage jitter caused by 6.5" display backlight control.
2. Adjust software filtering for BAT1, BAT2, and OAT to smooth out jitter caused by 6.5" display backlight control.
